## Portable Filter Cart

**Extend Coolant Life, and Reduce Maintenance and Down-time with the Powerful and Versatile Portable Filter Cart From Knoll.**

With the all-new Portable Filter Cart from Knoll, you can enjoy the versatility of running filtration down to 5 microns using a bag filter, magnet filter or both on any machine in your shop. By removing the micro-fines, coolants and wash fluids will last longer, run cleaner and extend the life of your pumps.

And because it is portable, you won't need a unit for every machine in your shop. Help eliminate tooling and finish issues and start saving money today with the Knoll Portable Filter Cart.
